

Eco-Friendly Series Eco-Friendly Heavy Band

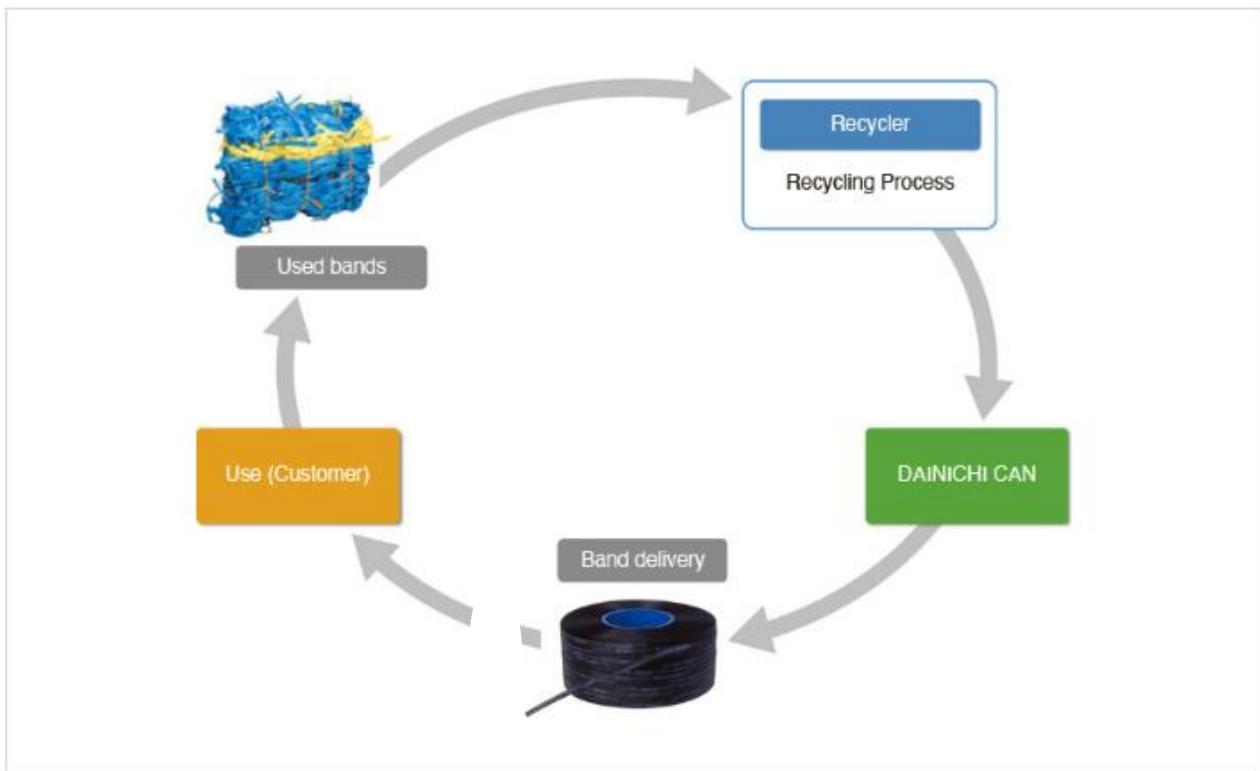

A circular strapping band manufactured using recycled materials from used PP bands, offering the same quality as conventional products.

Uses our original reusable plastic core, "Pla-Core."

Features of Eco-Friendly Heavy Band

- Heavy band made from 100% recycled materials.
- Compatible with your existing strapping machines.
- Reuse of the Pla-Core eliminates the need for paper core disposal.
- Environmentally friendly strapping band that supports corporate sustainability initiatives.

Recycling Flow of Eco-Friendly Heavy Band
