

Strapping Band DIC Heavy Band

A lightweight and safe alternative to steel strapping, offering excellent workability.

A polypropylene strapping band designed for heavy-duty packaging.

[Applications]

Pallet packaging / Paper packaging / Ingot packaging / Plywood packaging / Tile packaging / Construction material packaging / Others

Features of DIC Heavy Band

- Lightweight (approximately one-tenth the weight of steel strapping), offering excellent safety and workability.
- Economical and helps reduce costs.
- Does not damage products even when applied directly.
- Supports labor-saving and production line automation when used with automatic strapping machines.
- Product Specifications of DIC Heavy Band

Product Specifications of DIC Heavy Band

■ For Metal Seal Fastening

Product Name	Width (mm)	Length (m)	Tensile Strength (N/kgf)	Elongation (%)	Inner Diameter (Ø)	Packaging (rolls)
HV1625R	15.5	250	2450/250	25	150	10
HV1635R	15.5	250	3430/350	25	150	10
HV1935R	19	250	3430/350	25	150	10
HV1945R	19	250	4410/450	25	150	10

[Strapping Equipment] [Tensioners, Case Sealers, and Metal Seals](#)

■ For automatic strapping machines

Product Name	Width (mm)	Length (m)	Tensile Strength (N/kgf)	Elongation (%)	Inner Diameter (Ø)	Packaging (rolls)
HV1625	15.5	2000	2450/250	25	200	2
HV1630	15.5	2000	2940/300	25	200	2
HV1635	15.5	1700	3430/350	25	200	2
HV1935	19	1300	3430/350	25	200	2
